at SEI Private Trust Company

SEI New ways.

**Like other investors,
you sleep better at night
knowing your assets are
protected against fraud
and institutional failure.**

Your security is our priority.

At SEI Private Trust Company, we've built a strong reputation in the financial services industry, which has led 81 other trust companies to outsource their own systems, accounting and processes to us.¹

Your financial advisor has established a relationship with SEI Private Trust Company because of this reputation and the services we provide through advisors. Together, we look forward to assisting you along your investment and financial journey for years to come.²

²Please note that all investments are subject to market risk, including loss of principal.

Here's what's in place to safeguard your assets.

You've read the news reports in recent years of massive fraud perpetrated on investors like yourself. You may even become more concerned about protecting your assets from fraud or institutional failure.

So it's reassuring to know that, as a federally chartered limited-purpose savings association, SEI Private Trust Company adheres to extensive federally mandated controls designed to prevent fraudulent activity. Moreover, these control measures are audited by both independent and internal auditors. As a limited-purpose savings association, SEI Private Trust Company is also subject to examination by the Office of the Comptroller of the Currency (OCC).

Our internal controls and policies are for your ultimate protection.

SEI Private Trust Company does not commingle your assets with its own or other investors. All brokers and banks can commingle investor funds. They can lend securities, offer margin lending and use their clients' assets as collateral for their own borrowing. Unfortunately, this commingling of funds has been a factor in fraud situations.

As a trust company, SEI Private Trust Company cannot commingle funds or use client funds in its own account for any use—lending or otherwise—because all client assets are held in an account under the client's name.

SEI Private Trust Company does not participate in margin lending. Margin lending, in which client assets are used as collateral for the broker's or bank's lending activities, has also been seen as a primary cause of at least one high-profile failure. SEI Private Trust Company cannot pledge, lend or margin client assets that are held in its custody.

SEI Private Trust Company—not an outside firm—maintains custody of all client assets.

Perhaps the largest fraud in financial history was perpetrated through manipulation of custody records for client accounts. SEI does not allow custody of client assets by any of the investment firms with which we work. Instead, all assets are held at SEI Private Trust Company. While our third-party money managers are responsible for security selection, we do not send client funds to these firms. We do not purchase products from these firms. They are simply granted access to trade securities on our platform, which we then monitor.

And even though we do not allow outside firms to custody our clients' assets, we still perform rigorous due diligence on them.
