First-Quarter Business Highlights:

- Revenues increased in first-quarter 2014 as compared to both first-quarter 2013 and fourth-quarter 2013. Revenue growth was primarily driven by higher Asset management, administration, and distribution fees from market appreciation and improved cash flows from new and existing clients.
- Sales events, net of client losses, during first-quarter 2014 totaled approximately \$23.1 million and are expected to generate net annualized recurring revenues of approximately \$21.9 million when contract values are fully realized.
- Our average assets under management, excluding LSV, increased \$12.6 billion, or nine percent, to \$157.6 billion in the first-quarter 2014, as compared to \$145.0 billion during the first-quarter 2013, and increased \$5.9 billion, or four percent, as compared to \$151.7 billion during the fourth-quarter 2013. Average asset balances for the first-quarter 2013 include \$7.0 billion in assets related to SEI Asset Korea (SEI AK), which was sold in first-quarter 2013 (see attached Ending and Average Asset Balances schedules for further details).
- Our average assets under administration increased \$60.1 billion, or 22 percent, to \$336.0 billion in the first-quarter 2014, as compared to \$275.9 billion during the first-quarter 2013, and increased \$18.2 billion, or six percent, as compared to \$317.8 billion during the fourth-quarter 2013 (see attached Ending and Average Asset Balances schedules for further details).
- We recorded pre-tax gains of \$5.6 million, or \$.02 diluted earnings per share, and \$22.1 million, or \$.08 diluted earnings per share, from the sale of SEI AK in first-quarter 2014 and 2013, respectively. The operating results of SEI AK were included in the Private Banks business segment.
- Income from LSV increased in first-quarter 2014 to \$32.2 million as compared to \$27.8 million in first-quarter 2013 due to an increase in assets under management from market appreciation and an increase in performance fees earned by LSV. Our ownership interest in LSV was approximately 39.3 percent in first-quarter 2014 and 39.8 percent in first-quarter 2013.
- Amortization expense related to capitalized software increased to \$9.2 million during the first-quarter 2014 as compared to \$8.2 million during the first-quarter 2013 due to continued releases of the SEI Wealth PlatformSM.
- The effective tax rates were 35.9 percent in first-quarter 2014, 34.9 percent in first-quarter 2013, and 35.2 percent in fourth-quarter 2013. Due to the expiration of the research and development tax credit on December 31, 2013, the first-quarter 2014 tax rate reflects no benefit for the tax credit, whereas the first-quarter 2013 tax rate reflects the benefit for 2012 and 2013. The increase in our tax rate was partially offset by an increase in the portion of pre-tax income in certain foreign jurisdictions which is taxed at a lower rate during the first-quarter 2014.
- In first-quarter 2014, we repurchased 2.0 million shares of our common stock for \$69.0 million.
