

Investment Strategy

The Multi-Asset Income Fund, (the "Fund") seeks to generate total return with an emphasis on income by selecting investments from among a broad range of asset classes, based upon the Adviser's expectations for income, and to a lesser extent, capital appreciation. Asset classes may include equity securities, fixed income securities, master limited partnership units, REITs, and affiliated and unaffiliated funds. The Fund may also purchase or sell futures contracts, options, forward contracts and swaps for return enhancement or hedging purposes.

Investment Philosophy and Process

The asset classes used, and the Fund's allocations between asset classes, will be determined based on the Advisor's views of fundamental, technical or valuation measures. The allocations among asset classes may be adjusted over short periods of time, and at any particular point in time the Fund may be diversified across many asset classes or concentrated in a limited number of asset classes. The Fund uses a multi-manager approach under the general supervision of SIMC, allocating its assets among one or more Sub-Advisers using different investment strategies. SIMC may also directly manage a portion of the Fund's portfolio.

Fund Details

Total Net Assets	\$951.26 Million

Glossary & Disclosures

There are risks involved with investing including loss of principal. There is no assurance that the objectives of any strategy or fund will be achieved or will be successful. No investment strategy, including diversification, can protect against market risk or loss. Holdings subject to change.

International investments involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles or from economic or political instability in other nations. Bonds will decrease in value as interest rates rise. High-yield securities may be more volatile and be subject to greater levels of credit or default risk. Derivatives may be more volatile and less liquid than direct investments in the underlying securities themselves. Derivatives are subject to market risk, leverage risk, correlation risk and liquidity risk. Certain securities may be less liquid and difficult to sell, potentially affecting performance. The use of leverage can amplify the effects of market volatility on the Fund's share price and may cause the Fund to liquidate positions when it would not otherwise be advantageous to do so.

For those SEI products which employ a multi-manager structure, SIMC is responsible for overseeing the sub-advisers and recommending their hiring, termination, and replacement. SEI Investments Management Corporation (SIMC) is the adviser to the SEI Funds, which are distributed by SEI Investments Distribution Co. (SIDCO). SIMC and SIDCO are wholly owned subsidiaries of SEI Investments Company.

Index performance returns do not reflect any management fees, transaction costs or expenses. One cannot invest directly in an index. Past performance does not guarantee future results.

The Bloomberg Barclays Global Aggregate Bond Index is an unmanaged market-capitalization-weighted benchmark that tracks the performance of investment-grade fixed-income securities. The index reflects reinvestment of all distributions and changes in market prices.

The ICE BofA Merrill Lynch Fixed Rate Preferred Securities Index tracks the performance of fixed rate US dollar denominated preferred securities issued in the US domestic market.

The ICE BofAML US High Yield Constrained Index measures the performance of high yield bonds.

The JP Morgan EMBI Global Diversified Index is a comprehensive global local emerging markets index that consists of regularly traded, liquid fixed-rate, domestic currency government bonds and includes only the countries which give access to their capital market to foreign investors (excludes China and India).

The S&P 500 Index is an unmanaged, market-weighted index that consists of the 500 largest publicly traded U.S. companies and is considered representative of the broad U.S. stock market.
