

SEI New ways.
New answers.®

Your goals.
Our strategy.

Learn how SEI and your advisor make
a powerful team.

Your advisor trusts SEI.

Like other investors, you may often feel unsure about what you want from professional advice. Some investors express a desire for greater stability. Others seek assurances about meeting their financial goals, and many are just looking for a second opinion.

To help satisfy your needs, your advisor chose to use us for our global resources and expertise in financial industry knowledge, leading-edge investment strategies and asset management technology.

Because we want you to feel as comfortable with us as your advisor does, we'd like to share an overview of our history, approach to investing and its process to help you achieve your goals.

Who is SEI?

Founded in 1968, SEI is headquartered in Oaks, Pennsylvania, with offices based around the world. SEI is ranked as one of the top "U.S. Advisory Third-Party Managed Account Provider" (Cerulli Associates, Q3 2018). For 50 years, we have used the most up-to-date research to anticipate changing investor needs and create innovative solutions designed for people like you and for institutional investors.

Our products and services help corporations, financial institutions, and you create and manage wealth to support your goals.

In 2018, SEI was named the "Top OCIO Provider" at the Institutional Asset Management Awards in November 2018. We also were named by Pensions & Investments as one of the Best Places to Work in Money Management in 2017, as well as in 2016, 2015, 2013, and 2012.

The power of diversification

We are steadfast in our commitment to keeping your investments fully diversified. Few things will set you back quicker than market timing and overconcentration in a single investment style.

As you can see from the chart on the opposite page, individual asset classes go in and out of favor over time. Conversely, when some investors try to build their own portfolios, they sometimes dismiss asset classes that can be highly effective in providing diversification and smoothing returns.

Our investment process

Six steps in helping to achieve your goals

We aim to deliver a more intelligent and disciplined approach to managing money. As an investor in SEI investment strategies, you'll benefit from a well-tested investment process founded on market research, broad diversification and thoughtful portfolio construction, as well as risk management.

- 1. Asset allocation:** Research shows that this important first step accounts for the majority of the variation in a portfolio's return. Working with your advisor, we structure an allocation that you can live with long-term and has the potential to meet your objectives.
- 2. Portfolio design:** We use our research and knowledge of the economic cycle to construct portfolios that we believe should perform consistently across asset classes and geographic regions. Portfolios are adjusted depending on whether the economy is in expansion or recovery, under stress or not.
- 3. Investment manager selection:** SEI is a manager of managers. We do not employ these managers. They are third-party advisors to whom SEI gives specific asset management assignments. They do the actual security selection. Managers are monitored carefully and switched out when necessary to enhance consistency and potentially lower volatility.

Sample SEI managers

Manager/Headquarters	Investment Mandate/Benchmark	Assets Under Management ¹	Direct Access Minimum
Parametric Portfolio Associates Seattle, WA	U.S. Large Cap Core/Tax Transition Russell® 1000	\$135 billion ¹	\$250 thousand
LSV Asset Management* Chicago, IL	U.S. Large Cap Value Russell® 1000 Value	\$122 billion ¹	\$25 million
Voya Investment Management Co., LLC New York, NY	U.S. Large Cap Growth Russell® 1000 Growth	\$212 billion ¹	\$25 million
Mar Vista Investment Partners, LLC Los Angeles, CA	U.S. Large Cap Growth Russell® 1000 Growth	\$6 billion ¹	\$1 million
Neuberger Berman, LLC New York, NY	International Equity MSCI EAFE	\$315 billion ¹	\$100 thousand
LMCG Investments, LLC Boston, MA	U.S. Small Cap Value Russell® 2000 Value	\$8 billion ¹	\$5 million
Axiom International Investors, LLC Greenwich, CT	U.S. Small Cap Growth Russell® 2000 Growth	\$11 billion ¹	\$25 million
Nuveen Asset Management, LLC Chicago, IL	Active Municipal Bonds Lehman Intermediate Municipal Bond Index	\$181 billion ¹	\$250 thousand

These institutional investment managers are among the dozens used in SEI portfolios. As a manager of managers, we research managers and then select the most appropriate for a specialized assignment in our strategies.

As of December 31, 2018

*SEI Investments has an approximate 38.9% minority ownership interest in LSV Asset Management as of December 31, 2018.

Managers do not set an account minimum, but rather evaluate each account on a case-by-case basis.

¹All assets under management are as of 9/30/2018

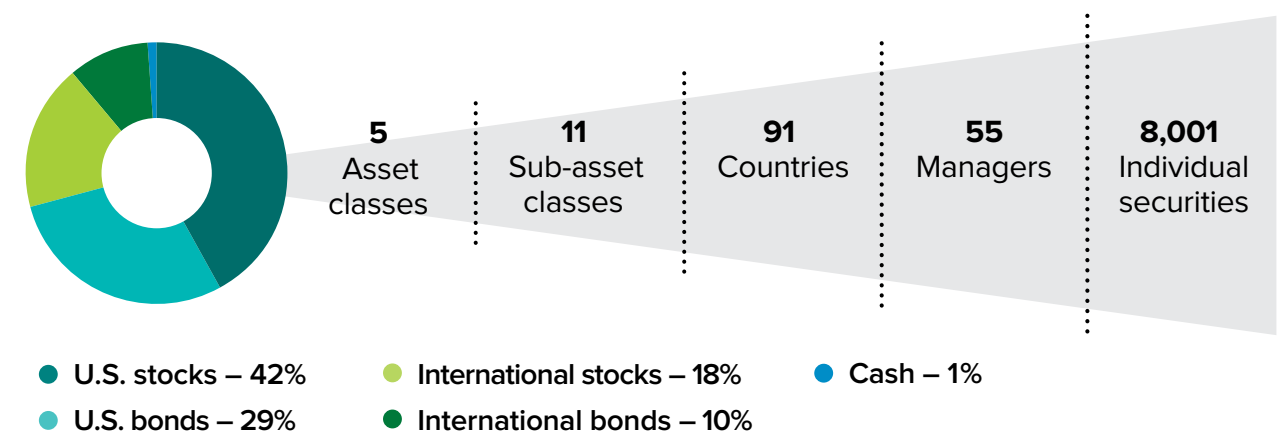

A well-tested investment process founded on market research

4. Portfolio construction levels

Your portfolios will consist of multiple levels of diversification, designed to optimize return while managing risk.

- › The top level includes asset classes like equities and income-generating securities such as bonds.
- › The second level consists of multiple sub-asset classes and styles like large cap, small cap, growth and value.
- › The third level demonstrates the geographic diversification of our portfolios.
- › The fourth level consists of individual managers, each of which is a specialist in a particular asset class or style.
- › The fifth level represents the individual securities selected for each portfolio by those managers.
- › All levels are continuously monitored and adjusted as changes in the markets or the economy dictate.

Our multidimensional approach to portfolio construction

Sample for illustrative purposes only.

There is no guarantee that risk can be managed successfully.

At SEI, effective diversification means more than spreading assets across a handful of classes. As you can see, your portfolio is a five-level structure designed to capture what the markets have to offer while helping to curb volatility.

*SEI Fixed Income Portfolio Management is a team within SEI Investments Management Corporation.

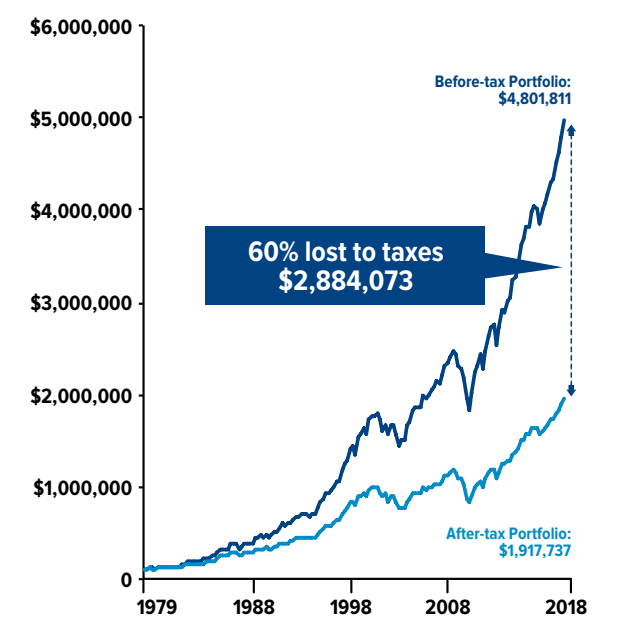

5. Tax management: Our investment process includes techniques to help you keep more of what you've earned. If not managed carefully, taxes can reduce your after-tax return by up to 60%.¹

6. Risk management: We commit significant resources to monitoring managers. Our own Investment Management Unit employs a team of 115 professionals globally, who average eight years of industry experience, and focus exclusively on research, portfolio strategy and portfolio monitoring.

It's not what you make; it's what you keep

Taxes reduce performance over time:

Hypothetical Growth of \$100,000

¹Parametric Portfolio Associates: Based on a hypothetical tax-free \$100,000 portfolio invested 60% in stocks (based on the Russell 3000) and 40% in bonds (based on the Bloomberg/Barclays Aggregate). Assumptions: (1) no liquidations. (2) interest income and dividends taxed annually at historical top marginal tax rates. (3) capital gains realized at 50% per year and taxed at the historical long-term capital gains tax rate. (4) portfolio held for 39 years (from 1979-2018). The intent is to portray a worst-case scenario. The portfolio would have grown from \$100,000 to about \$5.0 million. If the portfolio was taxed as indicated above, it would have lost 60% of its value, due to taxes paid and earnings lost on that money. Tax-managed investment strategies are designed to minimize capital gains distributions and maximize after-tax returns. Past performance is no guarantee of future results.

There are risks involved with investing, including loss of principal. Index returns are for illustrative purposes only and do not represent actual fund performance. Index performance returns do not reflect any management fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index.

The safety and security of your assets

Like other investors, you'd feel more confident knowing your assets are protected against fraud and institutional failure.

To that end, we'd like you to know that your assets are held in a separate subsidiary, SEI Private Trust Company. SEI Private Trust Company is a limited-purpose, federal savings association and a wholly owned subsidiary of SEI.

SEI Private Trust Company provides custodial and personal trust services, primarily to high-net-worth individuals, and custody services to institutional investors. Its reputation in the banking industry has led more than 100 other financial institutions to outsource their own systems, accounting and processes to SEI Private Trust Company.

SEI Private Trust Company is a limited-purpose, federal savings association that adheres to extensive, federally mandated controls designed to prevent fraud.

- › Your assets are segregated from SEI's own assets and held in your name.
- › As a trust company, SEI Private Trust Company cannot commingle funds, hold client funds in "street name," or use client funds in its own account for any use, including lending, because all client assets are held in an account under the client's name.
- › Margin lending is not permitted under SEI Private Trust Company's charter. SEI Private Trust Company cannot pledge, lend or margin client assets that are held in its custody.
- › Finally, SEI Private Trust Company maintains custody of all client assets. While we use outside firms to conduct stock selection for your investments, we do not send them assets. We simply grant them access to trade securities on our platform. Your assets are held in our safekeeping as long as you remain with us.

Please note that all investments are subject to market risk including loss of principal.

A comprehensive picture of your financial goals

Our approach to working with your advisor to help you reach your goals is distinct within the industry. Using an innovative goals-based approach, we begin with a discovery process, where you think about your life and future and the path along the way.

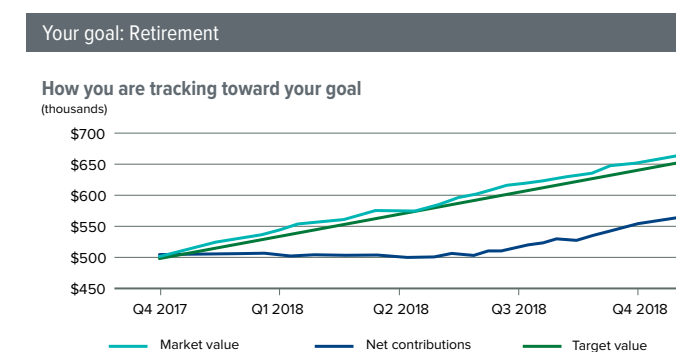

This distinct process helps you and your advisor identify goals and set priorities based on your investing time frame and personal circumstances. More importantly, you'll be confident knowing your assets are well positioned and held in your name at a reputable custodian.

There is no assurance the goals of the strategies discussed will be met.

Praised throughout the industry for their communication value, the statements you receive are both enlightening and clear. You'll see a statement that includes each of your goals, whether it's saving for retirement, funding college tuition or buying your dream vacation home.

Excerpt from a hypothetical client statement

Are you meeting your goals?

The illustration above reflects progress relative to an individual's retirement goal on a hypothetical client activity statement. The target value is based on inputs and information for your goal when the account is established including the beginning dollar investment value and time frame in months to achieve the end dollar goal. Net contributions do not include fees and income. Net contributions are calculated by adding contributions of cash and the market value of securities transferred in to your portfolio, and subtracting disbursements of cash and the market value of securities transferred out of your portfolio. The market values and net contribution values shown in this graph include only the assets that we use to calculate total returns for this retirement goal.

Asset class benchmarks / market indices

Large Cap Core = Russell 1000 Index

The Russell 1000 Index includes 1,000 of the largest U.S. equity securities based on market cap and current index membership; it is used to measure the activity of the U.S. large-cap equity market.

International Equity = The MSCI EAFE Index

The MSCI EAFE Index is an unmanaged, market-capitalization-weighted equity index that represents the developed world outside North America.

Emerging Markets Equity = MSCI Emerging Markets Index

The MSCI Emerging Markets Index is a free-float-adjusted market-capitalization-weighted index designed to measure the performance of global emerging-market equities.

Core Fixed Income = Bloomberg Barclays U.S. Aggregate Bond Index

The Bloomberg Barclays U.S. Aggregate Bond Index is a benchmark index composed of U.S. securities in Treasury, government-related, corporate, and securitized sectors. It includes securities that are of investment-grade quality or better, have at least one year to maturity, and have an outstanding par value of at least \$250 million.

REIT Index = Dow Jones U.S. Select REIT Index

The Dow Jones U.S. Select REIT Index tracks the performance of publicly traded REITs and REIT-like securities and is designed to serve as a proxy for direct real estate investment, in part by excluding companies whose performance may be driven by factors other than the value of real estate.

High Yield Bond = ICE BofA Merrill Lynch U.S. High Yield Master Constrained Index

The ICE BofA Merrill Lynch High Yield Master Constrained Index is a market-value-weighted index of all domestic and Yankee high-yield bonds, including deferred interest bonds and payment-in-kind securities. Its securities have maturities of one year or more and a credit rating lower than BBB-/Baa3 but are not in default.

Emerging Markets Debt = J.P. Morgan EMBI Global Index

The J.P. Morgan Emerging Market Bond Global Index is a benchmark index for measuring the total return performance of international government bonds issued by emerging market countries that are considered sovereign (issued in something other than local currency) and that meet specific liquidity and structural requirements.

International Fixed Income = Citigroup Bond WGBI Non-U.S. Hedged Index

The Citigroup World Government Bond Index measures the performance of fixed-rate, local currency, investment grade sovereign bonds from over 20 countries, denominated in a variety of currencies. The WGBI provides a broad benchmark for the global sovereign fixed income market.

Large Cap Growth = Russell 1000 Growth Index

The Russell 1000 Growth Index measures the performance of the large-cap growth segment of the U.S. equity universe. It includes those Russell 1000 Index companies with higher price-to-book ratios and higher forecasted growth values.

Large Cap Value = Russell 1000 Value Index

The Russell 1000 Value Index measures the performance of the large-cap value segment of the U.S. equity universe. It includes those Russell 1000 Index companies with lower price-to-book ratios and lower expected growth values.

Small Cap Value = Russell 2000 Value Index

The Russell 2000 Value Index measures the performance of small-cap value segment of the U.S. equity universe. It includes those Russell 2000 Index companies with lower price-to-book ratios and lower forecasted growth values.

Small Cap Growth = Russell 2000 Growth Index

The Russell 2000 Growth Index measures the performance of the small-cap growth segment of the U.S. equity universe. It includes those Russell 2000 Index companies with higher price-to-value ratios and higher forecasted growth values.

60/40 Diversified Portfolio

Annual returns for the 60/40 diversified portfolio are based on 24% Bloomberg Barclays U.S. Aggregate Bond Index, 19% Russell® 1000 Growth Index, 18% Russell® 1000 Value Index, 12% MSCI EAFE Index, 6% MSCI Emerging Markets Index, 6% Citigroup WGBI, Non-U.S. Hedged, 4% BofA Merrill Lynch U.S. High Yield Constrained Index, 4% J.P. Morgan GBI Emerging Markets Global Diversified Index, 3% Russell® 2000 Growth Index, 2% Russell® 2000 Value, and 2% Dow Jones U.S. Select REIT Index.

We'll make a great team.

Your advisor chose SEI as a partner based on our deep experience, institutional approach to investing and our total focus on setting goals. Our top priority is helping you reach those goals whether they're a secure retirement, funding a college education or leaving a legacy to their heirs. An important element of goal achievement is monitoring and follow-up. We will work in tandem with your advisor to keep you informed on your progress toward your goals, and periodically assess your investment plan as your life circumstances change.

Information provided by Independent Advisor Solutions by SEI, a strategic business unit of SEI Investments Company (SEI). Services provided by SEI Investments Management Corporation (SIMC).

For those SEI Funds that employ the 'manager of managers' structure, SIMC has ultimate responsibility for the investment performance of the Funds due to its responsibility to oversee the sub-advisers and recommend their hiring, termination and replacement. SIMC is the adviser to the SEI Funds, which are distributed by SEI Investments Distribution Co. (SIDCO). SIMC and SIDCO are wholly owned subsidiaries of SEI. Neither SEI nor its subsidiaries are affiliated with your financial advisor.

Carefully consider the investment objectives, risk factors and charges and expenses before investing. This and other information can be found in the Funds' full and summary prospectuses, which can be obtained by calling 800-DIAL-SEI. Read them carefully before investing.

*There are risks involved with investing, including loss of principal. Diversification may not protect against market risk. There are risks involved with investing, including loss of principal. Current and future portfolio holdings are subject to risks as well. Diversification may not protect against market risk. **There is no assurance the goals of the strategies discussed will be met.** International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles or from economic or political instability in other nations. Emerging markets involve heightened risks related to the same factors as well as increased volatility and lower trading volume. Narrowly focused investments and smaller companies typically exhibit higher volatility. Bonds and bond funds will decrease in value as interest rates rise. High yield bonds involve greater risks of default or downgrade and are more volatile than investment grade securities, due to the speculative nature of their investments. In addition to the normal risks associated with investing, real estate and REIT investments are subject to changes in economic conditions, credit risk and interest rate fluctuations.*

Past performance does not guarantee future results. Index returns are for illustrative purposes only and do not represent actual portfolio performance. Index returns do not reflect any management fees, transaction costs or expenses. One cannot invest directly in an index.
